

---

## INDEX

### azimuth

- back, 6-3 (illus)
- grid, 6-2, 6-3 (illus), 6-4, 6-8
- magnetic, 6-3, 6-11 (illus)
- origin, 6-3 (illus)
- plotting, 6-8 (illus)

### base lines, 6-2 (illus)

- grid north, 6-2
- magnetic north, 6-1
- true north, 6-1

### bench marks, 10-5

### codes, numerical, 4-25, 4-27

### colors, map, 3-6

### compass, lensatic

- handling, 9-1, 9-2
- orienting a map, 11-1
- parts, 9-1, 9-2 (illus)
- techniques, 9-2 thru 9-6

### compass, M2, G-1

### contour intervals, 10-2 (illus)

### conversion tables, C-1 thru C-3

### course, land navigation, 14-2

### dead reckoning, 11-14, 12-6, 12-7

### declination

- conversion, 6-9 thru 6-14
- diagram, 6-9 (illus), 11-1, 11-2

### degree, 6-1

### distance determiners

- estimation, 5-12 (illus)
- odometer, 5-11
- pace count, 5-11
- subtense, 5-12

### elevation depicting method

- bench marks, 10-5
- contour intervals, 10-2 (illus)
- spot elevations, 10-5

### EPLRS (enhanced position location reporting system), H-1, H-2

### extension scale, 5-3 thru 5-8, 5-9 (illus)

false easting, 4-11, 4-12 (illus)  
false northing, 4-11, 4-12 (illus)  
field expedient methods  
    shadow-tip method, 9-7 (illus)  
    star method, 9-9, 9-10 (illus)  
    watch method, 9-8, 9-9 (illus)  
folding a map, B-1  
foreign map, 2-7

G/VLLD (ground/vehicular laser locator designator), H-3  
geographic coordinates, 4-1  
geographic interval, 4-3  
GEOREF (World Geographic Reference System), 4-25, 4-26 (illus)  
global positioning system, 9-12, H-2, J-1, J-2  
grad, 6-1  
graphic (bar) scales, 5-3 (illus)  
    extension scale, 5-3 thru 5-9 (illus)  
    primary scale, 5-3 thru 5-6  
    time-distance scale, 5-10 (illus)  
grid coordinates, 4-14 thru 4-21  
grid-magnetic angle, 6-9  
grid north, 6-2  
grid reference box, 4-13, 4-24, 4-25 (illus)  
grids, military, 4-10  
    coordinates, 4-1 thru 4-10  
    lines, 4-11, 4-14, 4-15 (illus)  
    reference system, 4-1  
    squares, 4-3, 4-10, 4-14 (illus)  
    Universal Polar Stereographic, 4-11, 4-12 (illus)  
    Universal Transverse Mercator, 4-10, 4-11 (illus)

intersection methods  
    map and compass, 6-15 (illus)  
    straightedge, 6-16 (illus)

joint operations graphic, 2-5 (illus), 2-6  
    air, D-1  
    ground, D-1

latitude, 4-1 thru 4-4  
longitude, 4-1 thru 4-4

M2 compass, G-1, G-2  
magnetic north, 6-1  
maps  
    foreign, I-1

- military city map, 2-6
- photomap, 2-5
- planimetric, 2-5
- special, 2-6
- substitutes for military maps, 2-7
- topographic, 2-5
- types, 2-1
- marginal information, 3-1 thru 3-4, 3-4 (illus)
  - colors, 3-6
  - symbols, 3-6
- measures
  - angular, C-1
  - conversion factors, C-2 (table)
  - English system, C-1 (table)
  - metric system, C-1 (table)
- mil, 6-1
- military city map, 2-4
- mounted navigation
  - combination, 12-4
  - dead reckoning, 12-6
  - duties, 12-1
  - effects of terrain, 12-1
  - terrain association, 12-3, 12-4
  - vehicle capabilities, 12-2
- navigation methods
  - arctic, 13-9
  - combination of techniques, 11-8
  - dead reckoning, 11-14
  - deserts, 13-1
  - jungles, 13-6
  - mountains, 13-4
  - mounted, 12-1
  - night, 11-15
  - terrain association, 11-16
  - urban areas, 13-10
- night vision goggles
  - AN/PVS-5, H-1
  - AN/PVS-7, H-1
- orienteering, civilian, F-20
- orienteering, military
  - control points, F-10
  - course, F-2 thru F-5
  - equipment, F-5, F-6
  - map symbols, F-1 thru F-19 (illus)

- officials, F-5
- safety, F-10
- scoring, F-4
- start/finish area, F-5
- techniques, F-19
- orienting the map methods
  - using a compass, 11-1, 11-2 (illus)
  - using field expedients, 11-6
  - using terrain association, 11-5 (illus)
- overlay
  - aerial photograph, 7-3, 7-4 (illus)
  - map, 7-1, 7-3 (illus)
- PADS (position and azimuth determining system), H-3
- photographs, aerial
  - advantages, 8-1
  - disadvantages, 8-1
  - features, 8-17
  - film types, 8-7
  - indexing, 8-10 thru 8-13
  - numbering and titling, 8-7
  - scale determination, 8-8, 8-9 (illus)
  - stereovision, 8-18 thru 8-22 (illus)
  - types, 8-1 thru 8-7
- photomap, 2-5
- photomosaic, 2-6
- planimetric map, 2-5
- point designation grid, 8-14 thru 8-17 (illus)
- polar coordinates, 6-20, 6-20 (illus)
- polar plot, 6-20 (illus)
- prime meridian, 4-9, 4-10 (illus), 4-10 (table)
- procurement, 2-1, 2-2
- profiles, construction, 10-20
- protractor, 6-5
  - types, 6-6 (illus)
  - usage, 6-7, 6-8
- QRMP (quick response multicolor printer), H-3, H-4
- range estimation, factors of, 5-1 (table), 5-14
- relief depicting methods
  - contour lines, 10-1
  - form lines, 10-1
  - hachures, 10-1
  - layer tinting, 10-1
  - shaded relief, 10-1

- representative fraction (scale), 2-2, 2-3, 2-4, 5-1
  - large
  - medium
  - small
- resection method
  - map and compass, 6-17 (illus)
  - modified, 6-10 (illus)
  - straightedge, 6-18 (illus)
- ridgeline, 10-11 (illus)
- ridgeline, 10-19, 10-20 (illus)
  
- safety, 1-2
- scale (representative fraction), 2-3, 2-4, 5-1
- sketches, military, A-1
- skill progression, navigation
  - enlisted, 1-1
  - officer, 1-1
- slopes (all illus)
  - concave, 10-6 (illus)
  - convex, 10-7 (illus)
  - gentle, 10-5, 10-6
  - percentage, 10-8, 10-9
  - steep, 10-5 (illus)
- SOSES (shape, orientation, size, elevation, slope), 10-18, 10-19
- special map, 2-6
- stereovision
  - mirror stereoscope, 8-21 (illus)
  - overlap, 8-10 (illus)
  - pocket stereoscope, 8-20 (illus)
  - side lap, 8-20 (illus)
  - stereopair, 8-21 (illus)
- streamlining, 10-19, 10-20 (illus)
- sustainment program
  - certification, 14-1
  - development, 14-1
  - training guidance, 14-1
- symbols, map
  - military, 3-6
  - topographic, 3-4 (illus)
  
- terrain analysis, tactical
  - METT-T, 11-7
  - OCOKA, 11-6
  - route selection 11-12, 11-13
- terrain association, 11-7, 11-8 (illus), 12-3 thru 12-6, 12-8
- terrain features, 10-11 thru 10-16, 10-17 (illus)

- interpretation, 10-17 thru 10-20
- major, 10-12 thru 10-14 (illus)
- minor, 10-14, 10-16 (illus)
- profiles, 10-20 thru 10-24
- supplementary, 10-16, 10-17 (illus)
- terrain model, 2-6
- terrain types
  - arctic, 13-9, 13-10
  - deserts, 13-1 thru 13-4
  - jungles, 13-6 thru 13-9
  - mountains, 13-4, 13-6
  - urban, 13-10
- topographic map, 2-5
- train-the-trainer program, 14-1, 14-2
- training material, exportable, E-1
- true north, 6-1
