

We The People

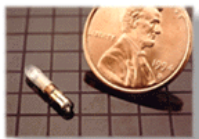

Vs.

The Government

The Federal Income Tax, the IRS, & Federal Reserve are simply unconstitutional! The 16th Amendment was never properly ratified through congress because the income tax just goes to pay off the interest on the nation's debt to the Federal Reserve banking cartel. The Federal Reserve is not "federal" at all; it is privately owned by a few key families, known as the Illuminati, and has direct ties with the Vatican Bank. Every dollar is printed out of thin air and is instantly charged with interest creating self generating perpetual debt; this is the tax no one talks about, the inflation tax. There is a Neo-Nazi agenda at work and the Elite seek to microchip the world population enslaving everyone into a One World Government. May we all become aware of these things. Art will save us... ^ _ ^

Microchips

"Give me control of a nation's money supply and I care not who makes its laws." ~ Mayer Rothschild

The possibilities are endless

There's presently a vortex of trash collecting in the Pacific Ocean that is approximately twice the size of Texas. The plastics are photo-degrading from sunlight and these small particles are competing with the plankton, which is the basis for our food chain! Any effort you can take in conserving & recycling aluminum, glass, paper, or plastic will have a far echoing impact<<<

Solutions to our environmental issues also have large part to do with our energy consumption. Nikola Tesla developed the technology for "free energy" 100 years ago & still to this date these advanced energies are being withheld from the world populace as a means of exploitation and control. If individuals in society were free to produce their own energy it would revolutionize the way the world operates, bringing us out of an oil based economy to one of liberation!~*

Alternative Energy Sources:

Zero-point, Solar, Wind, Hydrogen, Geothermal, Water Turbine, & Magnetic Motors

The Disclosure Project is a nonprofit research project working to fully disclose the facts about UFOs, extraterrestrial intelligence, and classified advanced energy and propulsion systems. They have over 400 government, military, and intelligence community witnesses testifying to their direct, personal, first hand experience with UFOs, ETs, ET technology, and the cover-up that keeps this information secret.

"I expect people to be skeptical, but not irrationally so; because these men and women have come forward and they have their credentials, they can establish who they are, & they have been first hand witnesses to some of the most important events in the history of the human race."

~ Dr. Steven Greer - Director of CSETI & The Disclosure Project
