

VIVERGY CO.,LTD

The High-Tech Filter and Mixer

Project Engineering Services

Electrical Systems for Mixing and Filtration Applications

Features

- Electrical Control System for Filter Press Control
- Electrical System for Pressure Leaf Filter Control
- Vegetable Oil Winterizing Tank temperature and Mixer Control System
- Load Control Systems for Mixing tank filling and dosing
- Inline static Mixer dosing control systems
- pH control systems for neutralization tanks

Applications

- Vegetable Oil Processing
- Waste Water Treatment
- Food Production
- Animal Feed Production

Rotary Valve & Pneumatic Conveying

Blower conveying systems for various capacities. Purpose built systems ideally suited for the conveying of powders and granulates from one or multiple sources to one main collection point, particularly toxic applications.
