

What's new with us?

Alexandra is 2 1/2 years old

Lady bugs are my favorite right now, along with ants. I like to catch them, carry them around, and play with them in the house. I have learned lots of new expressions from daycare--some that Mom likes and others that get me time-outs. Mom *loves* the way I talk so much that she won't even correct me! For example, I call dandelions "Bambi-lions" and teletubbies "Tlubby-tlubbies."

Jaron is 17 months old

I love to walk and I can even sort of run. I'm really starting to learn new words. My favorite word (and animal) is "puppy". I can also say "beep beep" and "I don't want it." Yesterday I had fun playing with a green ball in the park. I can eat with a fork, and drink juice with a straw.

Family News

We attended a lovely open house in honor of Ian yesterday. He is 8 weeks old. Grandpa Pinkney and Grandma Ellen flew in from Edmonton for the occasion. The kids all had lots of fun playing with their cousins. Photos of Alexandra and Jaron.

By visiting the Hunger Site, help the United Nations Food Program put an end to children dying of starvation all over the world (bookmark it and visit it every day).

Quote by Ralph Waldo Emerson.
