This document describes how to install the Quadro4 900 / 980XGL / Quadro FX1000 / 2000 / 3000 display driver for Windows 2000/ XP for use with the IBM T221 flat-panel monitor.

## Preparation

<u>For 900 / 980 XGL FX1000 / 2000 / 3000 pre-installed IBM PC :</u> The Windows 2000/XP driver suitable for 900 / 980XGL FX1000 / 2000 / 3000 pre-installed IBM PC (IntelliStation) is available for downloading from <u>http://www.pc.ibm.com</u>. Please go to the website and search the driver by key words "+xxxx +T221", where xxxx is your NVIDIA video card pre-installed IntelliStation Machine Type such as 6850. Please download the device driver for use with T221 and write it onto a removable storage like a CD-R or directly download it onto your PC that you will connect to the T221 monitor.

*For other NVIDIA Video Card for T221:* Please use the driver provided from the video card vendor and follow the instruction available from the vendor.

# 1. Software Installation for Windows 2000/XP

To install the display driver, follow these steps:

- 1. Remove existing video driver.
- 2. Restart the PC.

# 3. The Windows 2000/XP desktop appears.

Note: A warning message, "The hardware has changed," may appear, ignore this message.

- 4. If you created a driver CD-R disk, insert it into the CD-ROM drive of your personal computer and double click the driver file on the CD. If you downloaded the driver onto the PC, double click the driver file.
- 5. Choose the directory for storing the driver files by following the instructions in the dialog boxes. Next, go to the directory where you have chosen to store the driver files. Double click "Setup.exe" in the directory.

6. The following screen appears. Click the **Next** button and continue the installation.

- 7. For Windows XP, please follow the instruction in section 7.1. For Windows 2000, please follow the instruction in section 7.2.
- 7.1 WinXP: If Hardware Installation dialog box appears, then click the Continue button.

Hardwa	re Installation
1	The software you are installing for this hardware: NVIDIA Quadro4 900 XGL (IBM) has not passed Windows Logo testing to verify its compatibility with Windows XP. (Tell me why this testing is important.) Continuing your installation of this software may impair or destabilize the correct operation of your system either immediately or in the future. Microsoft strongly recommends that you stop this installation now and contact the hardware vendor for software that has passed Windows Logo testing.
	Continue Anyway STOP Installation

**7.2 Win 2000:** If **Digital Signature Not Found** dialog box appears, then click the **YES** button.

Digital Signature Not Found		
	The Microsoft digital signature affirms that software has been tested with Windows and that the software has not been altered since it was tested. The software you are about to install does not contain a Microsoft digital signature. Therefore, there is no guarantee that this software works correctly with Windows.	
	NVIDIA Quadro4 900 XGL (IBM) If you want to search for Microsoft digitally signed software, visit the Windows Update Web site at http://windowsupdate.microsoft.com to see if one is available. Do you want to continue the installation?	
	Yes No More Info	

8. When the **Installation completes** message appears. Select "**Yes**, **I want to restart my computer now**" and then click the **Finish** button. This will restart your computer.

This completes the software installation for Windows 2000/XP. Please go to the next section, **Software Settings for Windows 2000/XP**.

- Software Settings for Windows 2000/XP
- 1. The Windows 2000/XP system restarts and Windows desktop appears. If **NVIDIA nView Multi Display Setup Wizard** dialog box appears, click the **Cancel** button
- 2. Click the right mouse bottom on any area of the Windows desktop where no program is running, and then select **Properties**
