Highly affordable, ultradense server for edge-of-network and Web-based systems

IBM @server **xSeries 305**

Highlights

■ *Affordably-priced server to match your business needs and bottom line.*

■ *Reliable management features help maximize uptime, no matter where the server is located.*

■ *Flexible configurations let you choose the right solution for your business.*

The IBM @server™ xSeries™ 305 is a value-packed, entry-level 1U server for Web and network infrastructures.

Highly affordable
The ultradense, rack-optimized x305 can help ease your IT infrastructure and expenses. It packs a cost-efficient, edge-of-network solution in a 1U, 16.75-inch deep form factor. The x305 offers a range of Intel™ Pentium®4 processors with high-performance 533MHz front-side bus and up to 4GB of DDR memory—allowing you to manage expenses or optimize performance.

Streamlined manageability
The x305 takes advantage of in-novative cable management, IBM Advanced Connectivity Technology (ACT), to reduce cabling expense and rack clutter. A new slide-mounting

design also simplifies deployment and service. Industry-leading IBM Director and Remote Deployment Manager software take the hassle out of systems management and server deployment. For remote manage-ment, the optional IBM Remote Supervisor Adapter lets you remotely manage the x305 from any con-nected location. Together, these com-ponents work to ease the burden on your IT staff and help you increase productivity.

Flexible designs
The x305 can help match your needs:

• *Support for two IDE or SCSI hard disk drives to match your budget and performance needs*
• *Two 64-bit PCI-X slots for fast I/O performance*
• *Integrated Dual Gigabit Ethernet for high-speed network access*

xSeries 305 at a glance

Form Factor	Rack/1U
Processor	Intel Pentium 4 processor with up to 2.8GHz/533MHz front-side bus
Number of processors (std/max)	1/1
Cache (max)	512KB L2
Memory (std/max)	256MB/4GB PC2100
Expansion Slots	2 PCI-X (133MHz)
Disk bays (total/hot-swap)	2/0
Maximum internal storage	240GB[1] IDE or 293.6GB SCSI
Network	Dual integrated 10/100/1000 Ethernet
Power supply (std/max)	220W 1/1
Hot-swap components	N/A
RAID support	Optional
Systems management	Automatic Server Restart, Alert Standard Format, Wake On LAN® standard, IBM Director, ServerGuide, optional Remote Deployment Manager, IBM Remote Supervisor Adapter supported
Operating systems supported	Microsoft® Windows® Server 2003, Windows 2000®/Advanced Server, Linux® (Red Hat, SuSE), Novell NetWare
Limited warranty[2]	1-year onsite limited warranty
