
Release Notes for OCTANE™ Internal Option Disk Drives

Caution: The patch set included on the CD in this kit (or later version) is required for the correct operation of your OCTANE workstation. **Failure to install this patch set will result in various drive-related errors.**

Please read the CD release notes for patch installation instructions.

The CD included in this kit contains patches for the IRIX 6.4 operating system.

Patches for earlier IRIX operating systems are available on the Internet at the following locations:

- For information on downloading free patches, access this Web site:
http://www.sgi.com/Support/patch_intro.html
- For the software patches, access this Web site:
<http://www.surf.sgi.com/SurfZone/Support/patchset/>

This patch set (or later version) will already be installed on systems manufactured after 05/01/98.
