

# Compaq ActiveAnswers

for Commerce One BuySite Enterprise Edition

## Rapidly and Easily Deploy a Global End-to-End, Web-Based E-Procurement Application

**Compaq ActiveAnswers™ for Commerce One® BuySite™ Enterprise Edition provides information and tools to enable you to deploy a highly-available, robust e-procurement solution, so that anyone can purchase online, anytime, anywhere in the world**

Combined, Commerce One.netportal and BuySite Enterprise Edition provide a direct connection to the Global Trading Web, the world's largest community of buyers and suppliers. A single implementation of Commerce One BuySite Enterprise Edition supports multiple languages, currencies and tax requirements. Industry-leading XML technology instantly moves information to the user's desktop and directly to the supplier's back office. It all runs on award-winning Compaq ProLiant™ servers and is backed by Compaq Global Services.

### Faster Time to Solution

ActiveAnswers for Commerce One BuySite Enterprise Edition provides proven methods for developing, deploying and managing an e-procurement solution – reducing the time and resources you need to test, debug and integrate.

### Deploy and Grow with Confidence

The recommendations and best practices you will find on ActiveAnswers are based on extensive integration and performance testing on Compaq platforms, so you can expect optimal results and eliminate risks associated with trial-and-error deployment.

Commerce One BuySite Enterprise Edition is powerful enough for the procurement operations of the largest enterprises. Through its industry-leading “Buying Organization” architecture, BuySite Enterprise Edition can mirror any enterprise's organization structure, no matter how diverse. The application is built on Microsoft® technology and can scale as your business grows.

### Compaq ActiveAnswers

ActiveAnswers provides you with detailed planning, deployment and operations guides to build an e-procurement solution that fulfills all your purchasing needs. With Commerce One BuySite Enterprise Edition, customers can browse a catalog, compare prices, check inventory, create and approve requisitions, issue a purchase order, route it to the supplier, confirm the order status and arrange payment. Commerce One also offers full auction services.

*A completely interactive e-procurement cycle – from requisition to payment – can make purchasing online quick and efficient. Compare prices, check inventory and transmit purchase orders in real time. All with minimal training. What's the fast and simple way to get all this? Compaq ActiveAnswers for Commerce One BuySite Enterprise Edition.*
